Wall-Paper at One-Half Retail Prices

THIS BOOK shows actual samples of Larkin Wall-Paper and includes side-wall, border and ceiling papers suitable for Parlor, Library, Hall, Dining-Room, Bedroom, Kitchen and Bath—forty-one different patterns for you to choose from.

The prices named herein, like all our Catalog-prices for Products, are the same as you would pay at retail for papers of the same high quality. For \$10 you can get \$10 worth of Wall-Paper and your selection of any Premium Merchandise offered in our Catalog as given with a \$10 purchase of Products. Larkin Factory-to-Family Dealing always cuts retail prices in half and gives you double retail value of every Larkin Product. In proof of this, you can get \$20 worth of Larkin Wall-Papers (figured at prices herein) for \$10.

This means that Wall-Paper listed at 14c per double roll costs you but 7c; that listed at 20c, costs you 10c etc. These are the very prices you would pay at a store for *single* rolls. Buying from us, your Wall-Paper expense is cut in half. The saving of one-half is the same throughout the entire list of Larkin Products in any selection of which Wall-Paper may be included.

When you consider the *prices* of Wall-Papers, it is necessary to also consider the *quality*. There's a big difference in the quality of Wall-Papers. Some of the cheaper papers look real nice at first glance but the paper itself is poor, the colors are poor, the printing is poor—they are decidedly unsatisfactory, fade quickly and are hardly worth the labor of hanging. Larkin Wall-Papers are not to be classed with cheap papers. We use a paper-stock of adequate strength and quality. The printing, too, is done carefully by skilled and efficient workmen.

Selection of Colors Important

In selecting Wall-Paper for different rooms do not use warm red or delicate tints for a room with a southern exposure, especially if there are numerous windows in it. Red would make the room unbearable in the summer time. Green, brown, tan, blue or gray should be used. Rooms with a northern or eastern exposure should be papered with bright, warm colors, such as pink or yellow which give a warm, cheerful appearance. West rooms admit of the widest latitude of personal choice. You should always take into account the size and height of the room and select a pattern that will be right in "scale"—a small figure for a small room and a larger figure for a large room. This will help to bring everything in the room into the right proportion. Dismiss for once and all the mistaken notion that certain colors (green and blue for instance) are injurious to health because they contain arsenic. Larkin Wall-Papers, no matter what color, contain no arsenic or other injurious ingredients and are just as safe to have on your walls as pure white paper would be.

Our Guaranty of Satisfaction

If the paper you order from us is in any way unsatisfactory, if you don't like the color or the pattern, you need not keep it. We will gladly exchange it for something else or you may return it at our expense and we will refund the entire amount of your order, freight-charges included. In fact we will send your order (up to \$10 worth) on thirty days' credit and you may pay us at the end of that time only if entirely pleased, otherwise we'll remove the goods at our expense.

The enclosed Order Blanks are for your convenience in ordering. If you lose them, send for more, or use ordinary paper.

Dear Customer-Friend:

Here is the Wall-Paper Book you asked for. It contains patterns for every room in the house.

With these handsome papers you can, at an expense remarkably small in proportion to the results obtained, beautify your home, adding greatly to the attractiveness and coziness of each room. On the back of each sample is suggested to what room that paper is best suited and what border and ceiling-paper to use with it.

In judging the samples, imagine them as they will look on your walls. The picture on the back of the sample will help you in this.

Read carefully the directions for selecting colors and estimating the amount of paper required.

Buying Larkin Wall-Paper from factory to family saves you a great deal of trouble and money. You may select the paper right in your own home, in the very room in which it is to be used, so that you KNOW exactly how it will look.

Then, too, with Larkin Wall-Paper you get valuable Merchandise-Bonus which, if taken in additional Wall-Paper, gives you twice the quantity you could get at retail. In other words, you can get Wall-Paper by the Larkin Plan for just half what it would cost you in a store -- you can get paper for two rooms for what you would pay the storekeeper for paper for one room! If you wish to make a still further saving by doing the work yourself, the directions for making paste and hanging paper will enable you to paper a room quite as well as a regular paperhanger.

Use the enclosed blank when ordering and bear in mind that Larkin Wall-Papers are not to be classed with cheap papers. You will find them of excellent quality and durability and a source of lasting satisfaction.

Yours very truly,

L A R K I N C O.

P.S. While you are planning for the new Wall-Paper, you may want to select fresh Paint and Varnish for the wood-work and have new rooms throughout. You can choose them from our Paint Color Card at the same saving of one-half, backed by our guaranty of satisfaction or your money refunded. A copy will be sent on request.

File 314 5703

Instructions for Estimating Amount of Paper Required

Estimating the amount of paper required for a room is very easy indeed if you will follow these few simple instructions.

First measure the distance (in feet) around the room. Then measure the height from floor to ceiling. By referring to the table printed below you can readily determine the amount of Wall-Paper required.

Do Not Deduct For Windows or Doors As We Have Made Allowances In Our Table

Note Carefully

Larkin Wall-Paper is furnished in double rolls only.

The side-wall and ceiling paper contains 16 yds., 18 in. wide. Each roll will cover 60 square feet of surface. The wall-paper border is printed on paper 19½ in. wide. There is nothing narrower printed; therefore, in manufacturing a 9-in. border, two borders are printed on one width of paper and a 16-yd. roll contains 32 yds. of border. When a customer orders 16 yds. of 9-in. border, we send 8 yds. of regular width paper which contains 16 full yds. of 9-in. border. The narrower borders, 2¾ in. and 3 in. wide, are printed six widths to the roll and have to be cut into strips. Just order the total length of border paper you need and we will send you the correct amount.

An Important Caution

We strongly advise you, when ordering, to purchase slightly in excess of your actual needs. This will give you extra paper for use if some is spoiled when hanging or damaged later.

Directions for Making Paste and Suggestions for Hanging Wall-Paper

How to Make Paste Take three pints of good wheat flour and stir in two tablespoonfuls of powdered alum (omit alum if our plain oatmeal paper is to be hung); mix until smooth in two quarts of luke-warm water and add eight quarts of boiling water. Boil until thoroughly cooked, stirring constantly for 10 minutes. When cold, thin with cold water until it is just thick enough to run off the brush. This will make sufficient paste for a large room.

How to Make Size If walls have never before been papered or have been kalsomined or whitewashed, they should be gone over with a thin coat of size before papering.

To make size—Take 1 lb. of glue (powdered, if obtainable) and soak for 12 hours in cold water; add 12 quarts of hot water and one tablespoonful of powdered alum. Walls that have been painted should be gone over with a solution consisting of one part ammonia and six parts water before papering.

Board walls or board ceilings should be covered with cheese-cloth, tacked down and sized before papering.

How to Hang Paper Tools needed—For a pasting-table, have 2 or 3 smooth boards 6 or 8 ft. long laid side by side on a table or boxes. As a platform for papering the ceiling, have a plank or board nearly as long as room and placed on boxes of such a height, that when standing thereon, your head will come about 6 inches from the ceiling. A step-ladder will be found a great convenience when papering the side-wall. A paste-brush 6 or 8 inches wide; a smoothing brush—a whisk-broom will answer—a pair of your longest shears, a seam-roller (a bed-caster will serve) will be all the tools required.

Prepare the walls for papering. All old paper should be torn off, if possible, and all new walls sized. Any breaks in the plaster should be filled with plaster of Paris or have cloth pasted over them.

To Paper the Ceiling Paper the ceiling first. Find the length of the strip required, unroll the paper on the paste-table, face upward; match it and cut the number of strips required for the ceiling. Have the strips long enough to come down on the side-wall at each end. Turn all the paper face down. Apply the paste evenly and not too thick. When one-half is pasted, fold that end over to the center, pasted surfaces together, being careful to have the edges even. Then paste and fold the other end in like manner. Then with the shears, trim off one edge of the pasted paper to the printed pattern. Don't trim both edges. Draw a line across the ceiling, 16" from the wall for a guide for hanging the first strip.

Take up the pasted strip which has been folded and trimmed and begin at the right-hand side, as you face the wall; unfold one end and place the selvage-edge against the line on the ceiling, which will let the trimmed edge hang down on the side-wall about 2". Start smoothing it out, keeping the edge of the paper on the line and unfold other end of the strip as you are ready to smooth it out. Use the first strip as a guide for the second, and so on, being careful to match the pattern in the succeeding strips. Use the seam-roller (or caster) to smooth out the laps after each strip has dried for ten minutes.

To Hang Side-Wall Cut strips the required length, allowing for matching and for width of border at the top. Paste and trim as for ceiling. Begin to hang with a door at your left and work to the right, being careful to get the first strip plumb. Continue around the room, filling in over and under windows with short pieces. Care should be used in smoothing down paper around casings.

To Hang the Border Hang the border last. Cut into strips of convenient lengths and paste. Trim both edges. In hanging, care should be used to hang border on a straight line. If border is to be cut out, this should be done before pasting.

Pattern Number 153

THE GRANITE

This paper is unexcelled for use in kitchens or for any purpose requiring a paper that will not readily soil. Printed on tinted paper and has an architectural nine-inch border and a granite ceiling effect as illustrated.

NOTE:—On account of their greater wearing qualities we recommend the use of the more durable papers shown elsewhere in this book and which can be purchased at a cost of but a few cents more per double roll.

THE GRANADA

This splendid block design is printed on good quality grounded paper and is intended for use in kitchens, halls and bathrooms when a cheap paper is desired. We, however, recommend the use of the waterproof tile papers shown in this book for kitchens and bathrooms. While the first cost is greater, they are very durable. This paper has a nine-inch border to match, also a match ceiling as illustrated.

THE DOROTHY

Almost in every home there is some room that could be improved in appearance by papering with a light blue wall paper such as The Dorothy pattern we show here. The white lace effect of this beautiful design makes it very appropriate for bedroom decoration although it can also be used with excellent results for other rooms.

The border shown in our illustration has the design feature of the sidewall and a small insert of flowers in natural colors in addition. The ceiling is a perfect match for sidewall and border.

THE PEERESS

In the coloring of this beautiful drawing we aimed to produce an inexpensive paper in warm inviting tones, suitable for bed rooms, sewing rooms, small parlors, etc. The design is a graceful arrangement of floral wreaths and flowing ribbons in attractive colors and this wall paper should appeal particularly to any one desiring a paper that does not contain a stripe.

The border is nine inches wide and blends up to a very light cream ceiling.

THE ELEANOR

An artistic refined wall paper. The creamy gray ground and the white lace with the touch of green in the lace ornament produce a color harmony that is attractive and correct. Will make a splendid bedroom decoration and is also adapted for use in other rooms.

Border is nine inches wide and has, in addition to the sidewall features, an insert of small roses in natural colors which adds greatly to the general effect. The ceiling is a match for border and side-wall and is printed on a light-colored ground.

Pattern Number 424

THE FERNWOOD

This is a splendid pattern showing a beautiful combination of gold scrolls and ferns, and, within the gold medallion, a landscape with sky and foliage in natural colors. The gray green ground adapts this paper for use in any family or living room. Gold is heavy and of best quality.

Border is nine inches wide and, as illustration suggests, the landscape feature is enlarged. A very beautiful border for this fine paper.

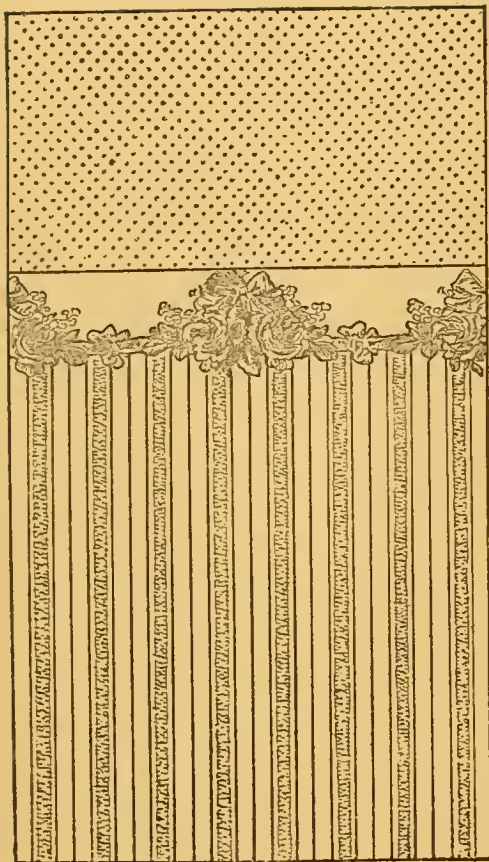

Ceiling is printed on a lighter shade of ground and is a perfect match.

THE ALEXANDRA

In this wall-paper we offer one of the most beautiful bedroom decorations designed for the season. Our illustration fails to convey a full idea of its beauties. A light-blue silk ribbon stripe on a lace ground and crowned with a superb rose and ribbon border. Roses in natural colors and ribbons in blue.

The border is nine inches wide at extreme width and can be "cut out" or hung straight. Ceiling is a plain lace silk polka dot Number 361 shown in back of this book.

THE ANDOVER

In the decoration of halls, dining-rooms, libraries and living-rooms, a well colored, well designed paper such as the Andover design shown here cannot fail to give good results. The ground work is an imitation of a tapestry fabric and the old blues, greens and browns that comprise the color scheme are reproduced from rare old tapestries. The border is eighteen inches wide and matches in design and colors. It is blended up to a match ceiling, printed on a cream ground.

THE BEVERLY **THE MANSFIELD**
(See sample 450) (See sample 458)

In this illustration we have endeavored to bring out some of the beauties of the Beverly and the Mansfield decorations shown elsewhere in this book. An "almost plain" side-wall paper with a handsome "cut-out" fruit border in either of the popular tan or oatmeal colors, on which these designs are printed, can be depended upon to produce an artistic, beautiful dining room interior.

THE HAMPTON
(See sample 456)

In decorating your parlor an effort should be made to create an air of dignity with warmth and coziness. This paper is beautifully adapted for this purpose. Compare the artistic qualities of this design as shown in this engraving with the printed sample shown elsewhere and which will give you the color scheme. A beautiful and durable high class paper suitable for all living rooms but particularly for parlors.

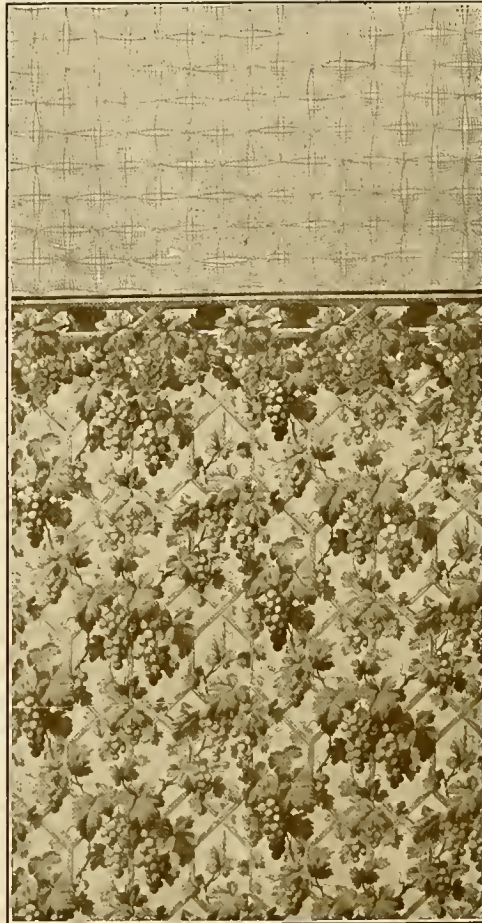

THE ELEANOR **THE DOROTHY**
(See sample 422) (See sample 410)

The colors in which we have made this exquisite Marie Antoinette lace design are pale blue and warm gray shown elsewhere in this book and both are designed particularly for sleeping rooms. The beautiful 9 inch border with its lace medallions and garlands of tiny roses can be cut out and makes an up-to-date finish to the room. This design in either color in which we offer it is certain to give splendid results.

THE ROSAMOND THE ALEXANDRA
(See sample 434) (See sample 426)

The colors in which we have produced these charming sleeping room side-walls can be seen by referring to the samples shown elsewhere. Our illustration fails to convey a proper idea of the surpassing beauty of the cut-out border that matches both colorings. To any one wishing to produce a refined fashionable appearance in any bedroom we recommend the use of either the Rosamond or Alexandras designs.

THE VINEYARD
(See sample 420)

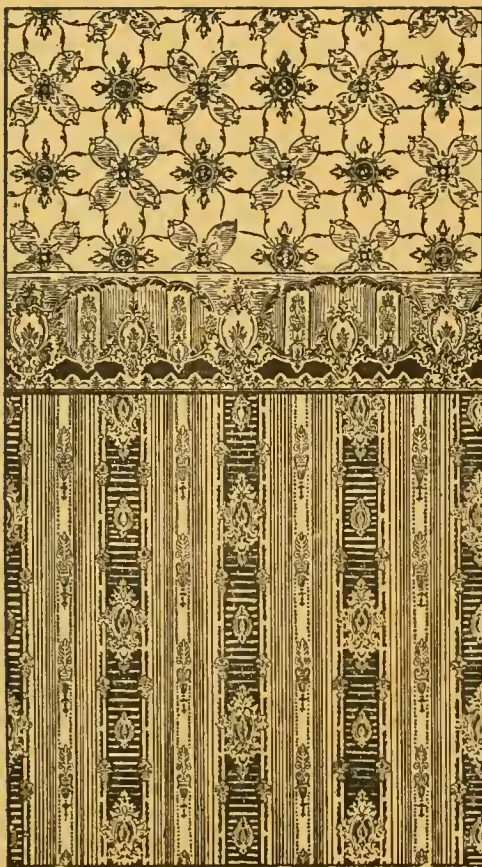

To fully appreciate the beauties of this pattern, we would suggest this illustration be considered in connection with the printed samples shown elsewhere in the book. It is impossible in an illustration to furnish an accurate idea of the beauty of this dining room decoration. Nothing more appropriate or up-to-date could be used in re-decorating your dining room. Border can be readily cut out as shown in illustration.

THE HUNTLEY THE STERLING
(See sample 446) (See sample 454)

This sidewall effect with the beautiful cut-out 9 inch border and match ceiling is recommended for use in all family or down stairs rooms. The most recent demand in wall paper is for "almost plain" sidewalls with fancy cut-out borders and the designs that form our illustration were brought out by us for the purpose of furnishing our customers with these new decorative effects at an exceedingly low price.

We make them in nineteen different colors: Black, Light-Blue, Medium-Blue, Dark-Blue, Buff, Chocolate-Brown, Pearl-Gray, Drab, Dark-Gray, Apple-Green, Pea-Green, Deep-Olive, Fern-Green, Blind-Green, Venetian-Red, White, Medium-Yellow, Orange-Yellow, and Maroon. Catalog-Prices: Quarts, 55c; Gallons, \$2.

We also will make any special color desired, if ordered in 8-gallon lots or more. Catalog-Price, per Gallon, \$2.

Larkin Floor Paints These Paints will withstand the action of weather, scrubbing, etc., and can be used on outside porch floors as well as on inside floors. We make them in five different colors: Dark Brown, Gray, Green, Terra-Cotta and Yellow. Catalog-Prices: Quarts, 50c; Gallons, \$1.65.

Larkin Inside Finishes In addition to our Ready-Mixed House Paints and Floor Paints, we also make various inside Finishes suitable for either old or new work: Inside White, White Enamel, Flat White, Flat Black, Clear Varnish, Colored Varnishes, Bronzes, Floor Wax, etc. For prices see our Catalog, order blank or color-card Paint Book.

Larkin Brushes We also offer a line of Paint and Varnish Brushes in common use: all guaranteed by us to be made of the highest grade of China bristles set into hardwood handles with nickel-plated bindings. For kinds, sizes and prices see our Catalog or order blank.

Send for Larkin Paint Color-Card

It shows our paints in actual colors; suggests proper combinations of colors to use; tells you how much paint to buy, etc.
